

Please don't take my k-love away.

K-love serves as a great resource in my local community. It provides quality listening services with values not heard on many other radio-stations. The local community would become affected from the loss of this station in ways that cannot be foreseen because of its positive and moralistic characteristics. Without that influence in the daily lives of citizens people may suffer. This is also why K-love is absolutely in the best interest of the public. Thank you very much.
